REASONS FOR ALLOWANCE

1. Claims 8-20 are allowed over the prior art of record.
2. Claims 1-7 and 21-36 have been cancelled.
3. The following is an examiner's statement of reasons for allowance: The applicant's arguments filed on 1/7/2008 are persuasive. **The feature of independent claims 8** directed towards allowable subject matter is the radiation sensing element is not part of a radiation emitting circuit and the radiation sensing element is located outside the projected area containing the radiation emitting element. **The feature of independent claim 16** directed towards allowable subject matter is the radiation-sensing element is not part of a radiation-emitting circuit, and the radiation-sensing element is part of a calibrating system, and the radiation sensing element is located outside the projected area containing the radiation emitting element. Salam teaches of a like display device, but fails to teach of the above claimed feature presenting sensors within the projected area of radiation emitting elements as found in claims 8 and 16. Therefore claims 8-20 are found to be allowable over the prior art of record. The Examiner also acknowledges that no foreign priority was claimed or received as previously indicated on 4/9/2007.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
